Series 2023/2- Flight Centre Travel Group Ltd

27 April 2023

Replacement Term Sheet PDS to be read in conjunction with the
C2 Accumulator - Deferred Purchase Agreement - Master PDS dated 21 October 2022

Important information

This Replacement Term Sheet Product Disclosure Statement ("**Term Sheet PDS**") dated 27 April 2023 replaces the Term Sheet PDS dated 6 April 2023 and supplements the C2 Accumulator - Deferred Purchase Agreement - Master PDS dated 21 October 2022 ("**Master PDS**") issued by C2 Specialist Investments Pty Ltd ("**the Issuer**"). This Term Sheet PDS together with the Master PDS constitutes the PDS for the Offer of the Series of "C2 Market Linked Products Series 2023/2-Flight Centre Travel Group Ltd" ("**Units**") described below. The Units are classified as Credit Linked Transactions (also referred to as Credit Linked Securities) as per the Master PDS. This PDS is for the offer of an agreement to purchase the shares ("**Delivery Assets**") specified in Section 1 of this Term Sheet PDS on certain terms (including deferred delivery of the Delivery Assets) in consideration for the Investment Amount ("**the Offer**"). This Term Sheet PDS is issued by C2 Specialist Investments Pty Ltd (ACN 622 433 032) and arranged by C2 Financial Services Pty Ltd (ACN 621 428 635 AFSL 502171) ("**the Arranger**") pursuant to Section 911A(2)(b) of the Corporations Act. Pursuant to Section 911A(2)(b), the Issuer will issue the Units in accordance with the offer made by the Arranger.

This PDS has not been lodged and is not required to be lodged with the Australian Securities and Investments Commission ("**ASIC**"). ASIC and its officers take no responsibility for the contents of this PDS.

All fees in this PDS are stated inclusive of any GST (unless stated otherwise). All monetary amounts referred to in this PDS are given in Australian dollars (unless stated otherwise). All references to legislation in this PDS are to Australian legislation. Explanations as to tax treatment and other features of the Offer have been provided for Australian investors.

Investments in the Units

This PDS (including the Master PDS) is an important document which should be read before making a decision to acquire the Units. The information in this PDS is general information only and does not take into account an individual's investment objectives, financial situation or particular needs or circumstances.

Nothing in this PDS is a recommendation by the Issuer or its related bodies corporate or by any other person concerning investment in the Units or the Reference Asset or any specific taxation consequences arising from an investment in the Units. Potential investors should also obtain independent financial and taxation advice as to the suitability of this investment to them having regard to their investment objectives, financial situation and particular needs.

No cooling off rights apply to investments in the Units.

Potential Investors should note that the Issuer retains discretion to amend the closing date for the offer for a Series and move the Commencement Date (and all other consequential dates) for a Series, or not to continue with the issue of a Series of Units on the Commencement Date and terminate any Units in that Series already issued, including where there is a significant change in the Issuer's cost of hedging between the date of this Term Sheet PDS and the Commencement Date. In particular, the Issuer will not continue with the issue of a Series of Units if it considers that it and its affiliates have not completed sufficient arrangements for management of their respective obligations in respect of that Series of Units. If a decision is made not to issue a Series of Units or to terminate Units in a Series that have already been issued, the Issuer will return the Investment Amount, that has been paid upfront, to applicants without interest within 10 Business Days of the scheduled Commencement Date.

Eligible investors and electronic PDS

This PDS and the Offer are available only to Australian resident Investors receiving this PDS (including electronically) in Australia. Applications from outside Australia will not be accepted. If anyone prints an electronic copy of this PDS, they must print all pages including the Application Form. If anyone makes this PDS available to others, they must give them the entire electronic file or printout, including the Application Form and any additional documents that the Issuer may require such as identification forms for the purpose of satisfying Australian anti-money laundering legislation.

The Units have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), and may not be offered or sold in the United States or to, or for the benefit of U.S. persons unless the Units are registered under the Securities Act or an exemption from the registration requirements of the Securities Act is available.

Returns not guaranteed

Returns on the Units are not guaranteed. The Issuer, the Security Trustee, the Custodian, the Arranger, nor any of their associates or subsidiaries guarantees the return on an investment in the Units or any gain. Definitions

Capitalised terms used in this PDS have the meaning given in Section 9 "Definitions" of the Master PDS, and as defined in this Term Sheet PDS.

Nature of the Units

The Units are "Securities" for the purposes of Chapter 7 of the Corporations Act. Please note "Unit" or "Units", when used in this PDS, means an agreement to buy the Delivery Assets between the Issuer, Custodian and the Investor pursuant to the Deferred Purchase

Agreement. The Units are not units in a trust or managed investment scheme. The Units are also classified as Credit Linked Transactions (also referred to as Credit Linked Securities) under the Master PDS. Please see the Master PDS for more information.

WARNING

CREDIT LINKED SECURITIES ("SECURITIES") ARE LINKED TO CREDIT OBLIGATIONS OF THE REFERENCE ENTITY AND THE VALUE OF THE SECURITIES ARE DEPENDENT UPON DERIVATIVE TRANSACTIONS SUCH AS CREDIT DEFAULT SWAPS WHICH ARE EMBEDDED IN THE SECURITIES. IF A CREDIT EVENT OCCURS IN THE REFERENCE ENTITY THERE WILL BE AN ADVERSE IMPACT ON THE VALUE OF THE SECURITIES INCLUDING POTENTIALLY LOSING ALL OF YOUR INVESTMENT. YOU SHOULD ONLY INVEST IN THE SECURITIES IF YOU UNDERSTAND THE RISKS ASSOCIATED WITH THE REFERENCE ENTITY, CREDIT EVENTS, CREDIT DEFAULTS AND THE TERMS OF DERIVATIVE TRANSACTIONS SUCH AS CREDIT DEFAULT SWAPS. THE SECURITIES ARE A CAPITAL AT RISK PRODUCT. THE MATURITY VALUE MAY BE LESS THAN THE AMOUNT INITIALLY INVESTED. IN A WORST CASE YOU MAY SUSTAIN THE LOSS OF YOUR ENTIRE INVESTMENT. YOU ALSO MAY LOSE PART OR ALL OF THE INITIALLY INVESTED AMOUNT IF YOU SELL THE SECURITIES BEFORE THE MATURITY DATE.

The Securities are credit linked securities and are not corporate bonds of the Reference Entity and do not behave like corporate bonds of the Reference Entity in all circumstances. The differences between the Securities and corporate bonds of the Reference Entity include (but are not limited to):

- The Securities and the Hedge Agreement are not issued by the Reference Entity and the Reference Entity has no involvement in the issue of the Securities or hedge documentation;
- The Securities include the credit risk of the Issuer and the Hedge Counterparty in addition to the risk of a Credit Event in respect of the Reference Entity. If the Issuer or Hedge Counterparty default on their respective obligations under the Securities, there will be an adverse impact on the Securities even if no Credit Event has occurred;
- The definition of a Credit Event relates to the settlement of derivatives transactions over the obligations of the Reference Entity. These derivative transactions and the value of the Securities are subject to market conditions which include factors other than the status of the Reference Entity such as interest rates, market volatility and liquidity;
- A Credit Event is only a proxy for a default by the Reference Entity on its credit obligations and the return of the Securities will not necessarily equate to the outcome for the holder of a bond in the event of an insolvency, administration or restructure of the Reference Entity. For example the settlement amount of the derivative transactions and the value of the Securities is determined by derivative market participants for the purposes of settling the derivative transaction. This settlement amount may be a significantly worse outcome than the ultimate result of an administration or restructure for the bond holders in the Reference Entity.
- The denomination of the Securities are issued in Australian dollars. The credit obligations of the Reference Entity may be in a currency other than Australian dollars. The Securities will contain a foreign exchange hedge to remove any foreign currency exposure in most situations. The foreign currency hedge may not apply if a Credit Event occurs.

Section 1: C2 Market Linked Products

C2 Market Linked Products are a series of investment products providing investors with the ability to access different underlying investment exposures, payoffs, and structures. This particular product, C2 Market Linked Products Series 2023/2 – Flight Centre Travel Group Ltd is a **Credit Linked Security**. Credit Linked Securities provide Investors with the potential for regular income in the form of Coupons and 100% principal redemption of the Issue Price provided no Credit Events affect the Reference Entity from the First Credit Event Occurrence Date to the Scheduled Last Credit Event Occurrence Date (and provided there is no Early Maturity Event or Adjustment Event), subject to the terms described below and in the Master PDS.

Issue Price	<p><u>Initial Offer Period</u> \$100.00 per Unit in respect of:</p> <ul style="list-style-type: none"> • Units purchased during the Initial Offer Period; and • any calculations referring to the Final Value or the Coupons. <p><u>Secondary Offer Period</u> For Units purchased during the Secondary Offer Period, the price per Unit is determined by the Issuer in its absolute discretion on the Scheduled Business Day on which an Application for Units in the Secondary Offer Period is accepted by the Issuer. The Issue Price for the Secondary Offer Period will depend on a number of factors, including without limitation, the current value of issued Units, the price and volatility of the Reference Entity & Reference Asset, prevailing interest rates, the time to Maturity and the Issuer's ability to obtain a hedge. Please note the Issue Price for Units after the Initial Offer Period is determined by the Issuer in its absolute discretion and may be higher than the price at which the Issuer may buy-back Units from existing Investors.</p>
Acquisition of Units during the Secondary Period	<p>Units may be purchased during the Secondary Offer Period by applying to the Issuer. The Issuer may provide an indicative Issue Price to potential investors to acquire Units and they can choose to apply based on the indicative Issue Price (at the Issuers discretion, refer to Issue Price above). Please note that all Coupons and Final Value are calculated with reference to the Initial Issue Price of \$100.00 per Units. So, an Investor who purchases Units during the Secondary Offer Period at an Issue Price greater than \$100.00 per Unit will receive a lower overall return than Investors who purchased Units at the Initial Issue Price of \$100.00 per Unit (or lower than \$100.000 per Unit in the Secondary Period).</p>

Minimum Buy-Back Amount	<p>5,000 Units providing the Investor continues to hold at least 5,000 Units. In the event that an Investor makes an Issuer Buy-Back Request which would result in the Investor holding less than 5,000 Units, then the Issuer will notify the Investor that it will hold less than 5,000 Units and seek the Investor's instruction whether to buy back the Investor's entire holding or reject the request.</p> <p>The Buy-Back Price will depend on the amount the Issuer receives from unwinding its Hedge with its Hedge Counterparty. The amount may be less than the initial Issue Price (and any other Issue Price) and may be zero. Please contact the Issuer for an indication of the Buy-Back Price.</p>
Withdrawal of the Units	<p>If the Issuer is unable to achieve the economic exposure described in this Term Sheet PDS on the Commencement Date due to any condition set out in this Term Sheet PDS or Master PDS not being satisfied (e.g. the Issuer being unable to hedge its obligations), or otherwise determines not to proceed with the issue for any reason, then the Issuer will terminate any Units already issued, and return the Investment Amount without interest within 10 Business Days of the scheduled Commencement Date and any Units already issued will be terminated. Key risks	
Key Risks include	<ul style="list-style-type: none"> • Capital invested in the Units is at risk. There is no capital protection or guarantee of financial return in respect of your investment in the Units. The value of the Units is calculated by reference to any Credit Events with respect to the Reference Entity during the Investment Term. You may lose some or all of your Investment Amount as a result of the Reference Entity experiencing a Credit Event. • Credit exposures to Reference Entity. The Units will reference the credit of the Reference Entity, therefore the Units include a risk of capital loss in part or in whole, as the result of Credit Event(s) occurring with respect to the Reference Entity. The Final Value and/or the Coupons of the Units will depend on whether a Credit Event has occurred in respect of such Reference Entity. If between the First Credit Event Occurrence Date and the Last Credit Event Occurrence Date, a Credit Event occurs with respect to the Reference Entity, the Units may be adversely affected by an actual loss of principal and loss of future Coupons (including any accrued but unpaid Coupons). Consequently, the Units may create significantly leveraged exposure to the credit of such Reference Entity. If a Credit Event occurs then third parties, such as the relevant CDDC, will have broad discretionary authority to make various determinations and adjustments with respect to the Reference Asset and there may be a conflict of interest between such parties and Investors in Units. • Credit Exposure to Issuer and Hedge Counterparty. In addition to the above, Investors also bear credit risk with respect to the Issuer and, indirectly, to the Hedge Counterparty. The performance of the Units is dependent not only on whether a Credit Event occurs with respect to the Reference Entity, but also on the creditworthiness of the Issuer, which in turn depends on the creditworthiness of the Hedge Counterparty. The Issuer's ability to fulfil its obligations under the Units depends on the Hedge Counterparty fulfilling its obligations under the Hedge Agreement which may be affected by certain factors, including but not limited to liquidity risks, market risks, credit risks, cross-border and foreign exchange risks, operational risks, legal and regulatory risks and competition risks. Please refer to section 2 "Risks" and Section 3 "Security Arrangements" of the Master PDS for more information regarding a default by the Hedge Counterparty. • Credit Rating: Investors should be aware that credit ratings do not constitute a guarantee of the quality of the Units or the Reference Entity. The rating assigned to the Reference Asset by the rating agencies, if any, is based on the Reference Entity's current financial condition (or, as the case may be, the Reference Entity's long term unsubordinated debt rating) and reflects only the rating agencies' opinions. In respect of the Reference Entity, rating agencies do not evaluate the risks of fluctuation in market value but attempt to assess the likelihood of principal and/or interest payments being made. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning agency. Nevertheless, the rating agencies may fail to make timely changes in credit ratings in response to subsequent events so that a Reference Entity's current financial condition may be better or worse than a rating indicates. Accordingly, a credit rating may not fully reflect the true risks under the Units. • Secondary Offer Period: Investors who purchase Units in the Secondary Offer Period at an Issue Price greater than the Initial Issue Price of \$100.00 will receive a lower overall return, as the Final Value and Coupons are calculated with respect to the Initial Issue Price of \$100.00 per Unit. Additionally, if there is a Credit Event, an Investor who purchased Units at an Issue Price greater than the Initial Issue Price of \$100.00 will incur a greater loss as the recovery of funds in a Credit Event would be based on the Initial Issue Price of \$100.00 per Unit. • Performance of the Reference Entity. Historical performance of the Reference Entity should not be taken as an indication of the future performance of

the Reference Entity during the Investment Term. It is impossible to determine with certainty whether the Reference Entity will suffer a Credit Event. Investors should consider all appropriate publicly available information in relation to the Reference Entity. These factors include, but are not limited to, movements in international financial markets, interest rates, currency rates and global economic, political, technological and environmental factors. In particular, as the Final Value (and payment of Coupons) depends on whether a Credit Event has occurred throughout the Investment Term, the Final Value may be less than an Investor's Issue Price if a Credit Event has occurred and may be zero. The Units are a speculative investment and may produce less returns than other investments, or no return at all. Investors should not expect the return on their investment to be the same as a return on an equivalent investment in the bonds of the Reference Entity.

- **Value of the Units before the Maturity Date.** The Final Value of the Units is calculated by reference to the Reference Entity and its overall credit worthiness between the First Credit Event Occurrence Date to the Scheduled Last Credit Event Occurrence Date. The market value of the Units before the Maturity Date will be determined by many factors. These include: value of bonds of the Reference Entity; the likelihood of a Credit Event occurring, volatility of bonds in the Reference Entity; time to Maturity; interest rates; general market risks, including but not limited to, general index movements, macro- economic risks and supply and demand; fees and costs; and perceived creditworthiness of the Hedge Counterparty. Any currency hedging mechanisms embedded in the Units may not be applicable if a Credit Event occurs or the Units otherwise terminate prior to the scheduled Maturity Date. Investors should be aware the Units are designed to be held to Maturity and are not designed to be a trading instrument. The Issuer may issue additional series of Units in the future. The Issue Price for these Units will reflect (amongst other things) the prevailing market conditions at the commencement date of those units, and which may be different to the market conditions as at the date of Units offered under this Term Sheet PDS. You should invest in Units offered under this Term Sheet PDS only if you are satisfied that the Units are appropriate for your individual circumstances.

- **Liquidity risk.** You may not be able to realise your investment when you want to. The Issuer Buy-Back facility is at the discretion of the Issuer. Issuer Buy-Back requests are determined in the Issuer's discretion. Issuer Buy-Back requests may be held over and may not be executed at all. Generally, the Issuer would only reject or defer an Issuer Buy-Back request if it is unable to adequately unwind its hedging arrangements.

- **Withdrawal risks.** There is a risk that Investors will lose some of their Total Investment Amount if Investors dispose of the Units before Maturity. There is no assurance that the Issuer will buy back your Units (and there is no obligation on the Issuer to do so). Buy-Back requests are irrevocable, and the Issuer might not accept a request immediately but hold it over. This may delay the processing of an Investor's Buy-Back request and may impact the Buy-Back Price an Investor receives and, if the Issuer does not buy back your Units, you may not be able to realise your investment until the Maturity Date.

- **Early Maturity.** The Units may mature early following an Early Maturity Event, including as a result of an Adjustment Event or Market Disruption Event or if a Credit Event or a Compulsory Early Redemption occurs or if your request for an Issuer Buy-Back is accepted. The Issuer may nominate an Early Maturity Event in certain circumstances, including if its hedging arrangements are terminated early, certain corporate actions taken by a Reference Entity or if the Issuer has to pay an additional amount as a result of a Change of Law. In certain circumstances the Hedge Counterparty may terminate the Hedge Agreement (for example, if the Hedge Counterparty determines that its obligations have become unlawful or illegal, or following an event of default). If the Units are subject to Early Maturity for any reason you will not be entitled to a refund of the Investment Amount and the amount that the Issuer receives from the Hedge Counterparty may be significantly

less than would have otherwise occurred had the Investment reached Maturity on the Scheduled Maturity Date. If there is an Early Maturity Event, then any Final Value will not apply on the portion of your Units subject to the Early Maturity Event and you will receive the Early Maturity Amount or Termination Payment (if any) as described in section 1.9 of the Master PDS. In this instance you may lose your entire Total Investment Amount.

- **Indirect Investment Risk.** Compared to a direct investment (including bonds) in the Reference Entity, the investor will not be entitled to receive dividend or other payments (if any) nor have any voting rights for corporate actions to do with the Reference Entity, will have no claim against the Reference Entity and no interest in or rights under any obligation of the Reference Entity, including if a Credit Event occurs. **An investment in the Units is not equivalent to an investment in the bonds of the Reference Entity.**

- **Conflicts of interest.** C2 Specialist Investments Pty Ltd and its affiliates, and sister companies ("**C2 Financial Group**") may face possible conflicts of interest in connection with its roles as Issuer, Arranger and any other role as described in this Term Sheet PDS and Master PDS. For example, C2 Financial Group entities may engage in other financial service activities or trade in the underlying shares of the Reference Entity or Delivery Assets or financial instruments linked thereto for their own account, or for the account of others. All of these activities may result in conflicts of interest with respect to the financial interests of the C2 Financial Group.

- **Hedge Risks.** the following risks may affect the Hedge Agreement, and in turn affect the value of your Units or result in an Early Maturity Event:

- The occurrence of any event that prevents, restricts or delays the Hedge Counterparty from converting or delivering relevant currencies or otherwise leads to a delayed and/or reduced payment under the Hedge Agreement (including due to a Credit Event).

- The Hedge Counterparty may make certain modifications to the Hedge or in certain circumstances terminate the Hedge without the consent of the Issuer.

- Foreign tax legislation may impose taxes on payments made by the Hedge Counterparty, received by the Hedge Counterparty or on payments made under the Hedge.

- **Counterparty risk of Issuer, Hedge Counterparty, Security Trustee.** If the Issuer goes into liquidation or receivership or statutory management or is otherwise unable to meet its debts as they fall due, the Investor could receive none, or only some, of the amount invested. However, the Issuer is a special purpose vehicle that only Issues Deferred Purchase Agreement or other structured products and has put in place a corporate structure which is designed to give Investors security over the Issuer's rights against the relevant Hedge Counterparty (through the Hedge Security Deed and Security Trust Deed) in the event of the Issuer becoming insolvent.

- **Custodian risk.** The Custodian is a related party to the Issuer. The primary role of the Custodian is to hold the beneficial interest in the Delivery Parcel and arrange for the sale of the Delivery Parcel if the Agency Sale Option is elected by the Investor at Maturity. The role of the Custodian is set out in the Custody Deed. There is a risk that the Custodian may be unable to perform its obligations under the Custody Deed and that Investors may not receive the Sale Monies or other amounts or assets due to them when due under the Terms. However, the Custodian is a special purpose vehicle set up to act as Custodian for the Issuers Deferred Purchase Agreement or other structured products and has not other obligations.

- **Default under Hedge for another Series risk.** There is a separate Hedge for each Series and, except in the case of an insolvency event, the right to set off and net payments applies separately to the Hedge for each Series. However, if there is an insolvency event (in relation to either the Issuer or the Hedge Counterparty) under a Hedge, then the Hedges for all Series may terminate and the relevant Hedge Counterparty and the Issuer will have the right to set off and net the amounts payable

	<p>on termination across the Hedges for all Series (where the Hedge Counterparty is the counterparty).</p> <ul style="list-style-type: none"> • Volatility Risk. The market price and or performance of the Units may be volatile and will be affected by, amongst other things, the time remaining to the Maturity, prevailing credit spreads and the creditworthiness of the Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions. • Correlation Risk. Risks relating to the Units may be correlated or compounded, for example, a Credit Event in the Reference Entity may create counterparty risk for a hedge instrument as a consequence and such correlation and/or compounding may result in increased volatility and/or in increased losses for holders of credit derivatives and the Hedge Agreement which will ultimately flow through to the Units. • Reference Entity Risk. The actions of the Reference Entity (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Units. The views of market participants and/or legal counsel may differ as to how the terms of market standard credit default swaps, and the corresponding terms of the Hedge Agreement, should be interpreted in the context of such actions, or such terms may operate in a manner contrary to the expectations of market participants and/or adversely to the interests of Unit holders. • Access to Information Risk. The information available for the Reference Entity may be different from, and in some cases less than, the information available for entities that are subject to the reporting requirements under the Corporations Act. The Issuer does not make any representation as to the accuracy or completeness of any information available with respect to the Reference Entity. The Issuer has no duty to disclose any information with respect to any Reference Entity. Prospective investors must therefore make an investment decision based upon their own due diligence and purchase the Units in the knowledge that non-public information may exist which will not be known to Investors and which, if known, may affect the Investor's investment decision. • Determination Binding Risk. Any determination by the Issuer is binding on the holders of the Units. A determination includes any determination in relation to an amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Issuer shall (in the absence of manifest error) be final and binding. <p>Please refer to Section 2 "Risks" and Section 6 "Additional Information about Credit Linked Securities" of the Master PDS for more comprehensive description of the risks and information about Credit Events.</p>
Fees	No fees are payable in respect of the Units.
Taxation	Please refer to Section 4 "Taxation" of the Master PDS.
