## Performance Update — Q2 2023

30 June 2023  
PFMT

The Notes benefit from an investment protection (IP) mechanism which requires parties associated with Pallas FM Trust to lodge cash and/or bank guarantees equal to 5.0% of the total Issue Size outstanding in respect of the Notes. Accordingly, as at 30 June 2023 the Pallas FM Trust held cash of \$5,314,000 for this purpose.

After applying the IP mechanism to any given individual investment within the PFMT portfolio, the effective LVR was 0% in 16 of the 24 positions (i.e. where the PFMT's position (as at 30 June 2023) in the individual loan was less than the IP amount).

Given the Issue Size has exceeded \$75 million, in accordance with the Information Memorandum dated 15 December 2020, the maximum single exposure of a qualifying loan as at 30 June 2023 is as follows:

- a) < 90 days (15% of Issue Size) \$15.94 million
- b) > 90 days (10% of Issue Size) \$10.63 million

Pallas Capital is satisfied with the deployment of Pallas FM funds to-date, and in the performance with the underlying loans.

### About Pallas Capital

Pallas Capital is a debt and equity fund manager specialising in the finance of Australian and New Zealand Commercial Real Estate. The business was established in direct response to the growing lack of credit in the mid-range property market; a situation exacerbated by the absence of reputable, risk-adverse, non-bank lenders.

This has meant that private capital can increasingly access outsized returns relative to risk in an asset class not previously accessible.

With offices in Sydney, Melbourne, Brisbane and Auckland we have originated and managed more than \$3.2 billion across 454 transactions in the past seven years, with current Funds Under Management in excess of \$1.7 billion. With a flawless track record of capital preservation, Pallas Capital has already returned over \$1.5 billion to investors with no loss of capital or interest on Pallas investments.

### Who can Invest?

Only wholesale, sophisticated investors may invest in Pallas Capital's investments, as defined in Section 761G of the Corporations Act (Cth). Typically, this can be satisfied by an Accountant's Certificate that certifies that the investor has:

- a) Net Assets in excess of \$2.5 million, or
- b) Gross Income in excess of \$250,000 p.a. for each of the last two financial years.

### What Investments are Available?

Pallas Capital offers a range of options for investors seeking to invest beyond traditional asset classes and unlock differentiated opportunities through Australian Commercial Real Estate. These include:

- Diversified pooled first mortgage portfolio investments including the Pallas FM Trust Fixed Rate Bond;
- Bespoke first and second mortgage investments; and
- Preferred equity and ordinary equity investment offerings in real estate development projects.

### What is the Investment Term?

Typically, loan participations and preference equity investments are between six months and two years in term. Ordinary equity investments may extend to three years.

### Do the Investment Products Provide Liquidity or Distributions?

For debt investments, interest is paid monthly or quarterly in arrears. For preference equity interest is generally paid quarterly and partly paid on final redemption. Ordinary equity returns are paid upon redemption or completion of the investment.

By virtue of the asset class and the structure of these products, these investments are illiquid in nature and redemptions during the investment term are not possible.
